This Form 8-K includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words such as "estimate," "plan," "project," "forecast," "intend," "will," "expect," "anticipate," "believe," "seek," "target," "may," "intend," "predict," "should," "would," "predict," "potential," "seem," "future," "outlook" or other similar expressions (or negative versions of such words or expressions) that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, but are not limited to, statements regarding Zanite's, Eve's, Embraer's and EAH's expectations with respect to future performance and anticipated financial impacts of the business combination, the satisfaction of the closing conditions to the business combination and the PIPE Investment, the level of redemptions by Zanite's public stockholders, the timing of the completion of the business combination and the use of the cash proceeds therefrom. These statements are based on various assumptions, whether or not identified herein, and on the current expectations of Zanite's, Eve's, Embraer's and EAH's management and are not predictions of actual performance. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on by any investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and may differ from assumptions, and such differences may be material. Many actual events and circumstances are beyond the control of Zanite, Eve, Embraer and EAH.

These forward-looking statements are subject to a number of risks and uncertainties, including: (i) changes in domestic and foreign business, market, financial, political and legal conditions; (ii) the inability of the parties to successfully or timely consummate the proposed business combination, including the risk that any required regulatory approvals are not obtained, are delayed or are subject to unanticipated conditions that could adversely affect the combined company or the expected benefits of the proposed business combination or that the approval of the stockholders of Zanite or Eve is not obtained and or that the proposed business combination and the private placement of common stock are not able to concurrently close; (iii) failure to realize the anticipated benefits of the proposed business combination; (iv) risks relating to the uncertainty of the projected financial information with respect to Eve; (v) the outcome of any legal proceedings that may be instituted against Zanite, Embraer, EAH and/or Eve following the announcement of the business combination agreement and the transactions contemplated therein; (vi) future global, regional or local economic and market conditions; (vii) the development, effects and enforcement of laws and regulations; (viii) Eve's ability to grow and manage future growth, maintain relationships with customers and suppliers and retain its key employees; (ix) Eve's ability to develop new products and solutions, bring them to market in a timely manner, and make enhancements to its platform; (x) the effects of competition on Eve's future business; (xi) the amount of redemption requests made by Zanite's public stockholders; (xii) the ability of Zanite or the combined company to issue equity or equity-linked securities in connection with the proposed business combination or in the future; (xiii) the outcome of any potential litigation, government and regulatory proceedings, investigations and inquiries; (xiv) the risk that the proposed business combination disrupts current plans and operations as a result of the announcement and consummation, (xv) costs related to the business combination, (xvi) the impact of the global COVID-19 pandemic and (xvii) those factors discussed in the Definitive Proxy Statement under the heading "Risk Factors," and other documents of Zanite filed, or to be filed, with the SEC. If any of these risks materialize or our assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that neither Eve nor Zanite presently know or that Eve and Zanite currently believe are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect Eve's and Zanite's expectations, plans or forecasts of future events and views as of the date of this Form 8-K. Eve and Zanite anticipate that subsequent events and developments will cause Eve's and Zanite's assessments to change. However, while Eve and Zanite may elect to update these forward-looking statements at some point in the future, Eve and Zanite specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing Eve's and Zanite's assessments as of any date subsequent to the date of this Current Report on Form 8-K. Accordingly, undue reliance should not be placed upon the forward-looking statements.

### Collaboration led by Eve publishes Concept of Operations for Urban Air Mobility in Rio de Janeiro

**Rio de Janeiro, Brazil, May 4, 2022** – Eve UAM, LLC (“Eve”), an Embraer S.A. (“Embraer”) company, published today the Concept of Operations (CONOPS) for the future Urban Air Mobility (UAM) market in Rio de Janeiro. The document is a first for Brazil and brings together data and analyses that cover the perspective, points of attention and operational needs of eVTOL (electric vertical take-off and landing) vehicles, passenger journey, and services and support. The CONOPS was developed through unprecedented cooperation with eleven strategic partners and government entities, including ANAC (Civil Aviation Agency of Brazil), DECEA (Department of Airspace Control), EDP Brasil, Helisul Aviação, Skyports, Flapper, RIOgaleão, Universal Aviation, ABAG (Brazilian General Aviation Association), in addition to Beacon, a platform that connects the ecosystem of aircraft maintenance services, and Atech, a company specializing in the control and management of air traffic (civil and military), both from the Embraer Group.

“All the partners of this working group play essential roles in the development of urban air mobility. Therefore, this collaborative document was designed to better understand the characteristics and challenges faced by this mode of transport. It also provides information about the UAM ecosystem that can not only be adapted but also developed with solutions to ensure a safe and sustainable expansion,” said Luiz Mauad, Vice President of Services and Fleet Operations at Eve.

The design of the CONOPS included studies on aspects that impact the UAM ecosystem, discussion groups involving the main pillars for its development, and a period of flight operations performed in November 2021 between Barra da Tijuca neighbourhood and RIOgaleão International Airport that simulated the UAM ecosystem with a helicopter. The community was also able to participate in this simulation by purchasing affordable tickets on one of the six daily flights conducted over the 30-day simulation period. The data and information collected from this simulation will contribute to defining the characteristics and needs for the development of urban air mobility not only in Rio de Janeiro, but also in other places, creating a UAM blueprint for any city.

The CONOPS will be available on Eve’s website for the entire community to better understand how the UAM ecosystem will enable a new means of affordable, safe and sustainable transportation. Eve hopes that the CONOPS will encourage all those responsible for this ecosystem to evolve together so that the industry, regulatory agencies, civil and government entities, and the community can continue investing in, developing, and integrating this new mode of transportation.

The CONOPS will constantly evolve, so if community members have any suggestions or comments, please email us at [Contact@EveAirMobility.com](mailto:Contact@EveAirMobility.com).
